Academic Projects

- Restaurant Management System (CDAC)
- (Project Duration-1 Month)
- Platform : J2EE, ReactJs, Mysql
- Description :
- The overall project is designed using the MVC pattern (MVC i.e. Model,View, and Controller). In the Backend, it is using Spring Boot, at the dataaccess layer the project is using Hibernate Framework, and at the front end,we are using HTML, CSS, and Bootstrap

- Analysis of RCC Building in Different Types of Soil in Various Zone
- (Project Duration-3 Month)
- Platform : Stad pro
- Description :
- Earthquakes are the natural phenomenon which can happen suddenly and can cause vast destruction. Most of the Indian land is insecure because of the vibrations caused by earthquakes. In the other sense, it is impossible to prevent the occurrence of earthquakes.
